

## Model 28CQ Butt Fusion Machine

### Description

The 28CQ is built for tight spaces. In the ditch, on the pipe rack, wherever room is at a premium the 28CQ is ideal. The simplified straightforward controls make training quick and operation easy. The robust and reliable design reduces the risk of downtime, and ensures lower maintenance costs. Built to accommodate an impressive range of pipe sizes and wall thicknesses, the 28CQ is an ideal machine for tie-ins, repair work, and quick jobs. It is a remarkable piece of equipment at an extraordinary price.

### Features

- Two-clamp, lightweight design allows easy in-the-ditch access.
- Pressure gauge offers excellent control of fusion pressures.
- Simple controls result in quick training and easy operation.
- Powerful hydraulic hand pump capable of fusing 8" DIPS DR7 pipe with ease.
- Accommodates 2" IPS through 8" DIPS pipe.
- Accommodates some competitor's inserts.
- Ported for data recorders.
- Robust and reliable design means lower maintenance costs and less down time.
- Limited three-year warranty.
